SAN FRANCISCO (AP)—The Chicago-bound Santa Fe Chief was derailed, apparently by a faulty switch, at the Orwood siding, 40 miles east of here Wednesday afternoon. There were no fatalities.

Ten cars, including the dome observation car, and the two diesel engine units of the crack streamliner left the tracks at a speed reported by the engineer at 70 miles an hour.

About 15 persons were reported hurt, nine seriously enough to require hospitalization. There were 191 passengers aboard the train.

The derailment was the second mishap experienced by the crack Santa Fe streamliner within a month. On Aug. 22, the train was derailed at Lomax, Ill.

Delay Notifying Senators Of Possible Recall

WASHINGTON (AP)—J. Mark Trice, secretary of the Senate, said Wednesday he had been advised by the office of Sen. Knowland (R-Calif.) that no announcement would be made before Thursday on whether a pre-election session of the Senate will be called to act on a resolution to censure Sen. McCarthy (R-Wis.).

Trice, who waited into the night to receive a call from Knowland, the Senate majority leader, had said earlier there was a possibility he would be instructed shortly to send out telegrams summoning senators to return here.

Sept. 29 was the date generally mentioned for the start of the session, although some thought it might be a few days earlier.

Trice said Knowland's office had informed him the senator had another Republican senator he wanted to contact before making a decision but did not expect to reach him in time for an announcement Wednesday night.

Trice said he expected to receive a call from Knowland Thursday morning.

While Trice stayed late in his office Wednesday night to hear from Knowland, the special six-member committee working on a report of its investigation of the censure charges met for nearly five hours in the office of Chairman Watkins (R-Utah).

Douglas Blasts 'Selfish Interests' Of GOP Party

DECATUR, Ill. (AP)—Sen. Paul M. Douglas spoke out Wednesday night against what he termed "the selfish interests" in the Republican party.

Douglas, Democrat running for reelection, stated:

"These selfish interests and their lobbyists are moving into positions of power, and they want to take over completely. They are trying to put over a campaign that the people will 'help Ike' by voting for them."

"Where these selfish interests to gain control of the country, they would hamstrung and frustrate the President at every turn."

Douglas, in remarks prepared for a rally, said the "selfish interests" oppose, while President Eisenhower favors, foreign aid, social security and fair employment practices. And, he said, they "are against a farm program of any kind."

The senator asserted the issues in the campaign could be boiled down to a simple: "The people against the selfish interests."

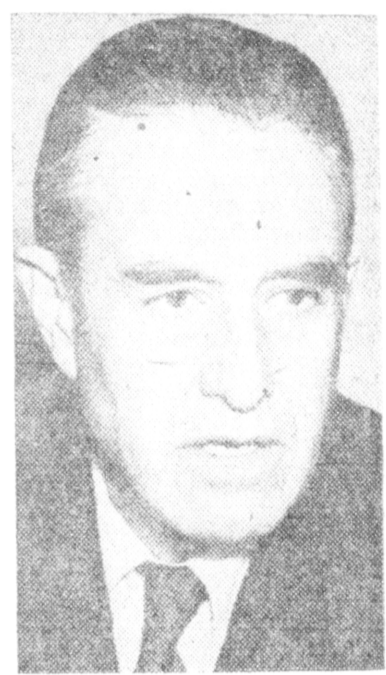

Acquit Defendant On Strength Of Lie Detector Test

CHICAGO (AP)—For the second time in Cook County (Chicago) Criminal Court history, a judge Wednesday ordered a defendant acquitted on the strength of a lie detector test.

The cleared man is Andrew Croustos, 38, accused of raping and murdering Mrs. Helen Anderson Prigge, 48. Judge Thaddeus V. Aedesko ordered the acquittal after a lie detector test showed Croustos did not commit the crime or know who did.

John Reid, a private lie detector consultant, administered the test Tuesday in the jury room of the court.

Police arrested Croustos, a taxi-cab driver, after learning he had driven a woman to 4745 N. Beacon St., where Mrs. Prigge's body was found June 3. She had been beaten to death.

GOP Picks Sen. Ives To Face Harriman

BY THE ASSOCIATED PRESS

New York Republicans gathered Wednesday to make official their expected nomination of Sen. Irving M. Ives to oppose Democrat Averell Harriman for the state's governorship.

Harriman, former Roosevelt and Truman administration official, won the Democratic nomination as expected early Tuesday from Rep. Franklin D. Roosevelt Jr., the son of the president he once served. Roosevelt's name still will appear on the Nov. 2 ballot as a candidate for reelection to his House seat.

Ives, the personal choice of Gov. Thomas E. Dewey to be his successor, was unopposed for the nomination at the GOP state convention in Syracuse.

Attlee Demands West Get Rid Of Chiang Kai-Shek

LONDON (AP)—Back from Moscow and Peking, Labor Leader Clement Attlee called on the West Wednesday to get rid of Generalissimo Chiang Kai-Shek at once.

Simultaneously, Attlee's lieutenants supported the principle of West German rearmament in the face of determined opposition from left wing and pacifist groups at a meeting of the Labor party's National Executive Committee.

Both developments will influence the course of events at the party's annual conference next week at Scarborough, a Yorkshire seaside resort.

Arriving home after talks with top Russian and Chinese Communist leaders, Attlee told reporters at London airport:

"Personally speaking, I think the sooner we get rid of Chiang Kai-Shek and his troops the better."

Long ago Attlee went on record in favor of giving Peking representatives the United Nations seat held by Nationalist China, a wartime ally of the Western powers.

Attlee, who was Prime Minister when Britain recognized Mao Tse-tung's Red regime in 1950, described Formosa—Island stronghold of Chiang's Chinese Nationalist troops—as "the biggest difficulty of all" in the Orient.

Attlee led a Laborite delegation that visited the Soviet Union and Red China in August.

He got back a little too late to take part in the executive committee's row over German rearmament.

SEND THE FREE ICE CREAM BY MAIL—PLEASE

LEXINGTON, Ky. (AP)—A Lexington firm's offer to pass out a few parcels of free ice cream got an unexpected freeze Wednesday.

Mrs. J. F. Frasure, a farm wife from near Covington, N.C., wrote that she'd be looking for her half-gallon of ice cream in an early mail.

Mrs. Frasure found one of 128 gift letters sent out in 5,000 gallons filled balloons Saturday at the Kentucky-Maryland football game.

Melvin A. Meyer, manager of Ball & Co., said: "We're going to send it if it's humanly possible."

Reds Demand Italy's Premier Resign Following Scandal

ROME (AP)—Italy's powerful Communist party Wednesday charged pro-Western Premier Mario Scelba with full responsibility for the Wilma Montesi death scandal and demanded his resignation.

The maneuver by the largest Communist party organization outside the Iron Curtain had been anticipated. Scelba promised to answer the charges Thursday.

Before the government-shaking storm broke on the Senate floor, police chiefs of key Italian cities, summoned urgently to Rome, were briefed on how to carry out anti-riot operations. A high police official said the Communists were expected to stage "disorders and demonstrations."

The Communist assault—joined by fellow-traveling Socialists—developed from the detention Tuesday night of two prominent Romans. They are Piero Piccioni, 32, jazz pianist son of Attilio Piccioni, who resigned last Saturday as Italy's foreign minister in order, he

U.S. Crime Rate Up 8½ Per Cent: J. Edgar Hoover

WASHINGTON (AP)—FBI Director J. Edgar Hoover said Wednesday the national crime rate jumped another 8½ per cent in the first half of this year, compared with the same period in 1953.

And, he added, if this trend continues, major crimes will reach a record high in 1954.

In a semiannual issue of the Bureau's Uniform Crime Reports based on police reports from all parts of the country, Hoover estimated that 1,136,140 major crimes were committed during the first six months of the current year, up 88,350 from a year ago.

The report noted that during the 1954 period "a major crime was committed every 13.8 seconds."

The FBI's summary of the police reports asserted:

"Each day during the first six months of 1954, it is estimated that an average of 35 people were feloniously slain and 252 other felonious assaults were committed; 48 rapes were committed; 608 cars were stolen; 197 robberies and 1,454 burglaries were committed."

"It is estimated that during the period a crime of murder, manslaughter, rape or assault to kill was committed every 4.3 minutes. The timetable for crime during the first half of 1954 is as follows: One murder or negligent manslaughter every 40.9 minutes; one rape every 29.8 minutes; one robbery every 7.3 minutes; one aggravated assault every 5.7 minutes; one burglary every 59 seconds; one larceny every 23.5 seconds; one auto theft every 2.4 minutes."

"Robbery jumped 20.4 per cent while burglaries rose 13.2 per cent and larceny 9 per cent."

"Estimated murder figures rose 0.9 per cent and aggravated assaults showed no change. Rape offenses declined 1.2 per cent and auto theft and negligent manslaughter were down 2.3 and 3.9 per cent, respectively."

"Urban crime rose 7.2 per cent. Rural crime increased 11.9 per cent."

Martha Raye Wants Pay For Injuries Received At Party

MIAMI, Fla. (AP)—Martha Raye, television and night club entertainer, wants \$400,000 injuries she says she suffered during a birthday party brawl in Miami a month ago Wednesday.

Mrs. Raye filed suit Tuesday in Circuit Court against Harry Barton, Coral Gables contractor, claiming permanent injuries she said were caused when Barton smashed a whisky bottle on her head.

She said she will never recover from the effects and claims the incident caused her to have "blurring eyesight, fainting spells and insomnia."

The suit was filed in the entertainer's married name, Martha Begley. Her husband, Ed Begley, was at the party but was not involved, according to reports.

30-Day Bride Asks Annulment, Claims Husband Insane

JOLIET, Ill. (AP)—A teen-age bride of one month asked an annulment of her marriage Wednesday, claiming her young husband, who left her with her honeymoon hotel bill when he went for a walk, is insane.

Mrs. Deanna Christensen Jorstad, 17, stated in her suit that the mind of her husband, Jerold, 21, was so impaired before and after their Aug. 21 wedding that he was incapable of understanding their marriage vows. She also contended that she was under age at the time of the wedding, and that the marriage was never consummated.

Shortly after the wedding at Lockport, Ill., the couple went to Milwaukee on a honeymoon. There, two days later, Jorstad told his bride he was going for a walk and disappeared. He left an unpaid hotel bill of \$75, and a \$65 bill for a chauffeur-driven limousine.

Jorstad was seized at Kankakee, Ill., Monday as he stepped off a train from Florida. He is held in the Kendall County jail at Yorkville on a charge of defrauding an innkeeper.

Pilot Loses Life In Burning Plane To Save Eight

SAN BERNARDINO, Calif. (AP)—A heroic pilot rode his burning cargo plane to a fiery death so the eight other men aboard could bail out. They were rescued Tuesday night and Wednesday in the San Bernardino Mountains, near the crash scene.

They suffered minor injuries. And two other airmen were hurt when their helicopter, used to bring the crashed crewmen out of the mountains, itself crashed—landed three miles northeast of Lake Arrowhead.

The gallant pilot of the twin-engine C82 was Capt. C.M. Eckstein, 33, of Van Nuys, Calif. His widow and two small children live in Sioux City, Iowa. The C82 was from the 521st Air Defense Group at Sioux City.

The cargo plane crashed shortly after refueling at Norton AFB here at 6:16 p.m. Tuesday night. It came down 10 miles northwest of Big Bear Lake and exploded as it crashed, touching off a forest fire which crackled uncontrolled for several hours.

The C82 crash was the second big bailout in southern California in two days. Fifteen Civil Air Patrol chaplains and three AF crewmen parachuted Monday from a C46 which crashed and burned in the Newhall-Saugus area, 75 miles west of here.

U.S. Prosperity Is Keynote Of GOP Women's Meeting

LOS ANGELES (AP)—The convention of the National Federation of Republican Women opened Wednesday on the keynote that this country is enjoying its greatest prosperity.

Mrs. Elizabeth Farrington, delegate from Hawaii to Congress, told the 500 delegates:

"Seldom in history has an administration done so much in so short a time to aid to the personal health, wealth, happiness and safety of the American people. The achievements of the 83rd Congress and the Eisenhower administration were the results of months of planning and painstaking work to implement in laws the solemn pledges of the President."

Mrs. Farrington was cheered when she said "the women of our federation were in great measure responsible for electing a Republican administration and Congress. But one point is basic. Our party commitments and our over-all administrative and legislative programs are in midpassage."

"We, the delegates to this convention, by our planning here this week can assure our President that he will have a Republican House and Senate in order to fulfill his pledge to the nation—that freedom will survive."

The two-day convention will be climaxed by a big rally Thursday night in Hollywood Bowl, where President Eisenhower will speak.

Autumn Makes Debut To Tune Of Cool Air

Summer made a sunny but chilly departure to much of the nation Wednesday and the cool, dry air which pushed eastward from the Dakotas to the Atlantic Coast and southward to the Gulf of Mexico gave a taste of fall.

Thursday is the first day of autumn.

The first frosts of the season whitened fields in portions of the Midwest as far south as Iowa and Northwestern Illinois.

Light showers fell in the Great Lakes area.

Safety Conference Proposes Increase In State Police

SPRINGFIELD, Ill. (AP)—After a cue from Gov. Stratton, the governor's traffic safety conference Wednesday formally recommended an increase in the size of the 500-man Illinois state police force.

The conference adopted a resolution submitted by its committee on legislation headed by James P. Economos, Chicago lawyer.

The committee called for an addition of 250 patrolmen "to provide for more adequate and effective accident prevention through enforcement of traffic laws."

Earlier, Stratton told 400 persons at the one-day meeting he will ask the 1955 Legislature to "increase substantially" the present force. He mentioned no figure.

Accepting reports of various committees, the conference also recommended:

An increase in the speed limit for heavy trucks from 40 to 50 miles an hour.

A boost in the state drivers license fee from \$1 to \$2, with extra proceeds going to strengthen controls over habitual violators and negligent operators.

Making refusal to submit to a drunkometer test on demand of authorities ground for suspension of driving privileges.

Abolition of the "iniquitous" fee system for compensating justices of the peace, and gradual replacement of JPs with salaried magistrates.

Traffic safety instruction in the general education program of all colleges, and an expansion of driver training activities in secondary schools.

Establishment of an improved accident record system on city, county and state levels of government.

"IKE" BACK AT WORK—President Eisenhower, back at his summer White House offices at Lowry Air Force Base, Colorado, following a Rocky Mountain fishing trip, is visited by Republican National Chairman Leonard Hall, before starting tour to win votes for GOP congressional candidates.

Eisenhower States His Basic Policy

MISSOULA, Mont. (AP)—President Eisenhower, hunting congressional election votes in a restrained kind of way, declared Wednesday night American citizens generally are better able to look after their needs "than is some bureaucrat in far-off Washington."

Opening a three-day aerial tour of the Far West with Republicans seeking to maintain control of Congress, the President addressed an applauding airport crowd which police estimated at 30,000 persons.

At no point in his brief off-the-cuff talk did the President plug openly for election of a GOP-controlled Congress in November. But as he has done before, he stated what he called the "basic policy" of his administration.

That is the kind of campaign, he said months ago he would do.

Eisenhower said the basic policy of his administration is "the intense belief that every citizen is not a ward of a centralized federal government."

The presidential plane Columbine landed at Missoula county airport after a 3½ hour flight from the summer White House in Denver.

PICKPOCKET PICKS POCKET OF WRONG MAN

CHICAGO (AP)—A funny thing happened to Conrad Marr, 28, Tuesday night while he was picking a pocket.

Another hand slipped in atop Marr's. It belonged to Policeman Thomas McEnteen who also owned the pocket. Unable to withdraw his hand while McEnteen held on, Marr went along peacefully.

McEnteen had been assigned to plain clothes duty at a South Side corner to watch for thieves.

Report 2 Guards, Two Prisoners Die In Missouri Riot

JEFFERSON CITY, Mo. (AP)—A bloody riot broke out at the Missouri State Penitentiary Wednesday night and at least two guards and two prisoners were reported killed in gun fire between guards and the howling prisoners.

Fire broke out at the prison's furniture manufacturing plant about 7:15 p.m., about an hour and a half after the "E" Hall break. It spread to other buildings rapidly.

Flames leaped up around the eerie gray walls of the penitentiary and could be seen for miles.

Two hours after the rioting broke out, Gov. Warren E. Hearnes called on the Missouri National Guard for assistance. A Jefferson City unit equipped with flood lights was ordered to the scene by Maj. Gen. A. D. Sheppard. A St. Louis company was ordered to rush to the prison by special train.

Prison officials said the rioting started in "E" Hall, the solitary confinement area of the sprawling stone prison.

They added it had been confirmed that two prisoners were dead and 14 injured. One guard, Oscar Corrington, was slightly injured with a bullet wound in his foot. They would not confirm reports that two guards also were killed in the shooting.

Warden Ralph E. Edison said he did not know how the convicts had obtained firearms. Reason for the rioting was not known, he said.

An unidentified prisoner told Thomas E. Whitecotton, director of corrections at the institution, that at least two other guards are locked inside inner buildings of the penitentiary.

Three of the injured convicts are reported to be seriously wounded. The dead were not immediately identified.

1st Officer Tried On This Charge

FT. SHERIDAN, Ill. (AP)—White-haired Lt. Col. Harry Fleming, 46, Wednesday was convicted of collaborating with the enemy in a North Korean prison camp, the first U.S. Army officer ever court-martialed on this charge.

The infantry officer was cleared of two other charges—informing on other prisoners under his command and of conduct unbecoming an officer in allegedly stepping on the foot of a soldier, also a prisoner of war.

Fleming accepted the 11-member court's findings without show of emotion. His wife and daughter were in the hearing room when the verdict was read.

Immediately, the court began hearing arguments of "mitigation and extenuation" as a prelude to passing sentence.

The maximum penalty could include dismissal from the service, forfeiture of pay and life imprisonment at hard labor.

The law does not provide for any minimum punishment but, in effect, it would be a reprimand.

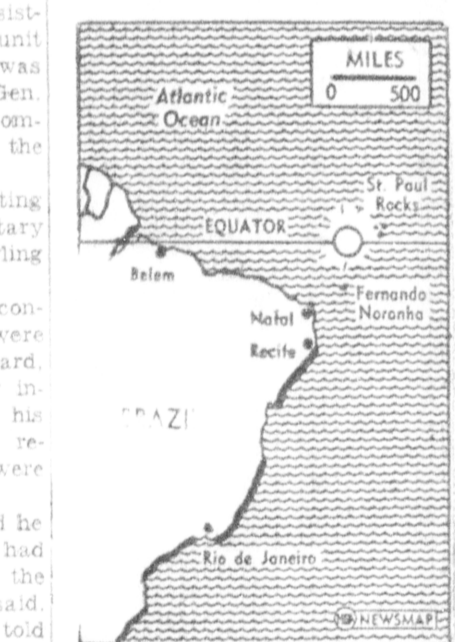

There was no indication when a decision on any penalty would be reached.

Fleming, of Racine, Wis., was the first American army officer to be court-martialed for his behavior in a Communist prison camp during the Korean War.

Information received from Washington was that the Judge Advocate General's office had reported Fleming also was the first U.S. Army officer ever court-martialed on a charge of collaborating with the enemy.

Alfred E. La France of Racine, Wis., defense counsel, said the case will establish a precedent.

Fleming was a captive of the (Continued On Page 13)

Interpreting The News

By J. M. ROBERTS

Associated Press News Analyst

The role that electric power developed from atomic piles may play in diplomatic affairs has been in the background all the time as the Western nations have been working on President Eisenhower's idea for a world pooling of material and technique in the peaceful uses of fission.

The general idea has been that, while coal-wealthy nations like France, Britain, Germany, and the United States are not yet actually in need of atomic power and its production is therefore not yet economical for them, great use might be made of it in underdeveloped areas.

In such areas, atomic piles would become weapons in the cold war, designed to clear up economic situations which invite communism. On Tuesday, whether by coincidence or not, the idea was expressed anew by Sen. Estes Kefauver.

Kefauver suggested such plants would confound the Russian propaganda program.

It would also hearten America's European allies, Britain, particularly, has become exercised over the role played by hydrogen bombs in America's approach to world problems.

British and American experts have recently been talking about the number of hydrogen bombs it would take not only to destroy civilization, which was talked about from the time fission bombs were first exploded, but to destroy all life on earth.

As long as the emphasis is on that, the reaction in the United States is that man is preparing primarily for the end of everything.

There is no important segment of opinion in the United States which favors stopping or even slowing up the weapons program now. But a program for living through and after the present world crisis would be a demonstration of heartening faith and determination.

President Asks Study Of School, Teacher Shortage

DENVER (AP)—President Eisenhower called today for "wide-spread and concerted study" of teacher and school shortages "and the loss of needed trained manpower through illiteracy."

The President's call went out in letters to the governors of each of the states and United States territories.

Eisenhower said with respect to those problems, "the facts show x x x that we are falling behind rather than catching up."

The President noted that Congress at the last session passed legislation authorizing state and White House conferences "at which representative citizens and educators can study their educational problems at all levels and determine what action should be taken."

PONTIAC, Ill. (AP)—Victims of an automobile-truck collision last March blamed the accident on a highway maintenance engineer and are suing him for \$10,950.

The Livingston County Circuit Court suit of John L. Hayes Jr. and his wife Jeanne, of Champagne, contends T. P. McCague of Ottawa, district highway maintenance engineer, should have had the highway cleared of snow.

McCague's failure to do so, the suit said, resulted in the collision of the Hayes automobile and a semi-trailer truck on State Route 47 three miles south of Forrest, Ill., last March 4.

EAT ANYTHING Rennel Reduces

SPRINGFIELD, Ill. "When I went into the Navy in 1943 I weighed 215 lbs. I did training and violent exercises took off 45 lbs. in as many days. After my discharge my weight again climbed to 245 lbs. and I could no longer eat foods I liked without gas pains and stomach distress. Then I read about Rennel Concentrate. The first month I lost 15 lbs. with this safe home recipe. I was able to eat anything I wanted and still reduce. I have now lost a total of 35 lbs. and will continue until I reach 200. Rennel is a safe sure way of losing weight and it is economical to use also," writes Harold E. Churchill of Elk River, Minn.

Since this announcement was first published just one year ago, more than **8,000,000** motorists have proved the astonishing benefits of TCP in their own cars. Today, the greatest gasoline development in 31 years has become the greatest gasoline success in history!

Your Guarantee. The trademark, TCP, is your guarantee that you are getting the full benefits of "The Greatest Gasoline Development in 31 Years." Only Shell Oil Company and its authorized licensee, Continental Oil Company, have the full knowledge of the proper use of TCP. Only Conoco Super Gasoline and Shell Premium have TCP.

The Greatest
Gasoline Development
in 31 Years

New Conoco Super Gasoline
with **TCP***

Boosts power as much as 15%!

Increases spark-plug life up to 150%!

Gives you extra gas mileage, too!

Here's the most revolutionary advance in motor fuels since the introduction of tetraethyl lead in 1922—new Conoco Super Gasoline with TCP, brought to you by special arrangement with Shell Oil Company. TCP is Shell's trademark for the remarkable additive first developed for aviation fuels.

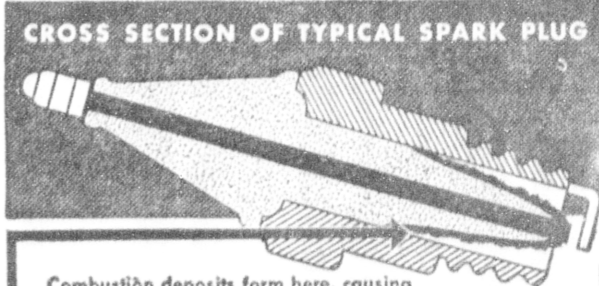

Now you can actually enjoy the benefits of an engine tune-up—just by changing to new Conoco Super Gasoline. Chances are, by the time you've finished your second tankful, you'll feel the increase in power. And you'll keep that extra power just as long as you use Conoco Super.

For Conoco Super with TCP is a new kind of gasoline. It overcomes the greatest single cause of power loss affecting most of the cars on the road today. Now, you can enjoy all the power that was built into your car.

Why you need Conoco Super Gasoline with TCP

In the average automobile, the by-products of fuel combustion constantly build up deposits on spark plugs and in combustion chambers. These deposits can "cheat" you of power in two ways. First, they actually short-circuit your spark plugs. This causes mis-firing. Second, deposits in the combustion chamber get red hot and cause the fuel to ignite before it should. This is called pre-ignition or "wild ping." The effect of fouled spark plugs and pre-ignition is a loss in power and a waste of gasoline.

*Trademark owned and patent applied for by Shell Oil Company

Combustion deposits form here, causing mis-firing and loss of power. TCP neutralizes these deposits, giving top power and performance.

How TCP works

TCP is a special chemical additive which is added to Conoco Super Gasoline. It was specifically developed to overcome the loss of power and fuel caused by combustion deposits. TCP neutralizes harmful deposits on spark plugs—your plugs spark as they should. It prevents deposits in the combustion chambers from causing pre-ignition—"wild ping" is controlled. Thus, every time you fill up with new Conoco Super, it's like getting your spark plugs cleaned and your engine tuned-up.

TCP helps your car, whether new or old

If you are driving a new car, with a high-compression engine, you need Conoco Super Gasoline to keep your car delivering all the power that was built into it. It will actually increase spark-plug life up to 150%. If you drive an older car, with tens of thousands of miles on the speedometer, Conoco Super can restore much of the "new car" performance and power you've been missing.

Yes, a great new era in motoring is here for you. Drive into your Conoco station today and fill your tank with new Conoco Super Gasoline with TCP. You'll feel the difference by the second tankful!

Now—at your Conoco dealer!

Halt Trial When Pike Defendant Pleads Guilty

PITTSFIELD, Ill. — The trial of Richard Fesler, of New Canton, which was set for trial on Monday morning in the County Court of Pike County on a charge of driving while under the influence of

liquor, was halted, when Fesler entered his plea of guilty to the charge. He was fined \$128.20 which included costs.

Three cases have been taken out of the setting, according to State's Attorney Bruce Irving. C. Truman Griffith entered his plea of guilty to one of three charges against him for reckless driving and was fined \$128.20, including costs. The other two cases against him were dismissed. Robert Dale, of Meredosia, also entered his plea of guilty to a similar charge and was fined in a like amount.

The trial of Allen Elliott of Pittsfield, on a charge of highway violation, has been postponed until October 18th by reason of his illness and a doctor's certificate that he is not able to be tried at this time. The court appointed Attorney Reginald Graham as defendant's attorney in the case of Earl McGulre of Pittsfield charged with driving while intoxicated, and the case was set at the end of the docket to allow the attorney sufficient time to prepare his defense.

THE STORY OF MARTHA WAYNE

By WILSON SCRUGGS

PRISCILLA'S POP

By AL VERMEER

THE STORY: Strange forebodings creep over Private Detective Jim Dunn and his wife Nancy as they start working for their client, Mrs. Kit Carlson, at The Spires, part of the Carlson estate. They are isolated from other members of the Carlson clan and Mrs. Kit has not yet arrived. Then Nancy sees a hideous, misshapen face pressed against the windowpane, looking in from the outside.

TWO strikes took Jim to the door. He flung it open. "Why don't you come in? We didn't hear your knock."

The huge cook, Mrs. Gelstrap, stood in the doorway, filled in. "That your missus?" she asked, nodding toward Nancy who still looked as if her eyes were playing unpleasant tricks on her.

"That's the missus," Jim said. He made the formal introduction. "Pleased to meet you, I'm sure," the cook said. "Right cozy you are here, I'm sure." Her greedy little eyes flicked around the room. "More comfortable than we are, Mrs. Kit is cold. That's what I came over about."

She sniffed and wheezed. "I can't stay now, but later your missus and I'll have a good long talk. Right now, Mrs. Kit wants you to come make a fire."

Jim got a flashlight and an armload of wood from the supply stacked under the balcony of the caretaker's cabin.

"Go on up," Jim told her. "I'll go through the basement and send up some wood. Be up later to make the fire."

He soon found it was not to be that simple. He had forgotten that Mrs. Hilton's wrecking crew had removed the woodpile. The armload he had carried was nearly lost when he thumped it down on the platform. He went back and got another and larger load.

Dunn had a fair-sized pile in the elevator at last and began working the crank, moving the load upward to the recess with the clink-clank, clink-clank he remembered so vividly from the night before.

The elevator moved up out of sight into the recess which made the window seat above. He was not usually morbid, but the six-by-three-foot recess reminded him of only one thing.

He moved quickly across the basement, mounted the steep stairs. The door at its head was locked. He pounded on it.

"Who—is it?"

"Jim," he said impatiently. "Jim Dunn. Come to light the fire as ordered. Remember?"

He heard the sound of some piece of furniture being pulled aside, heard the key turn in the lock.

He pushed through, mentally listing all the things he intended saying, all the questions he wanted explicit answers to. One look at his client's face, and a good look at the pesty Mrs. Gelstrap, and his questions vanished.

The two women were frightened. "What is it?" he demanded. "What happened?"

KIT CARLSON sat before some smoldering papers in the mammoth fireplace. She did not look at him as she spoke. "It's just—the cold. I'm so terribly cold. I didn't realize it would be so cold here this time of year. I—I was right—before. And that terrible, terrible noise the water makes. Can't you shut it off?"

Jim had to admit that was a feat beyond his powers. He opened the window seat, found he had piled the largest pieces of wood on top, with the small

pieces beneath and the kindling still farther down in the heap.

"Warmer soon," Jim said cheerfully. "Don't you think it's about time we had a talk?"

She wet her lips. "Tell me. You had trouble here last night?"

"Nothing too much," Jim said. He gave her a censored version of what had happened.

A telephone bell rang. A series of long and short.

The sound appeared so out of place that Jim stopped in the middle of a sentence. The phone rang again. He located the instrument now, sitting on a hinged shelf which obviously could be used to enclose the phone in a cubbyhole. It had been so enclosed before, and had not rung, for he and Nancy certainly would have found it. The phone sounded again in a series which told of a party line.

KIT CARLSON and Mrs. Gelstrap eyed the instrument hungrily.

"Isn't there some other way of heating this place? I mean beside the fireplace?" It was all too obvious the young woman was torn between a desire for warmth and an almost irresistible impulse for eavesdropping.

Jim knew now of one possible means by which the two women could have been frightened. He had his mind on that, and he made a big mistake by not thinking about what he was saying. "There's a furnace in the basement."

Kit Carlson's face relaxed at this solution of her quandary. "Splendid. Splendid. Would you build a fire there too, right away? Please. We can have our talk in the morning."

Jim let himself be pushed from the room. He stood on the stairs until he heard the door locked behind him and the scrape of the piece of furniture being pulled before him.

He clanked open the door of the furnace, stared into its dusty maw. "Me and my big mouth," he muttered as he started hauling wood.

Giants, Tribe Present Formidable Infields

By SHELDON SAKOWITZ
NEW YORK (AP)—The Cleveland Indians and the New York Giants will present a pair of formidable infields when they meet for the first time in World Series competition starting next Wednesday at the Polo Grounds.

Over-all, it looks like a tossup between the two infields, the Indians appear to have an edge at bat. The Giants seem stronger defensively.

At first base there's little to choose between Vic Wertz of the Indians and Whitey Lockman of the Giants. Wertz is hitting .258 compared to Lockman's .255. Their fielding averages are the same, .988 and each has hit 16 homers.

Cleveland boasts an advantage at second base with Bobby Avila

getting the vote over the Giants' Davey Williams. The poppy Avila, leading the American League in hitting with .336, has been a vital cog in the success of the Indians this season. Williams is hitting only .225 but has been a tower of strength defensively. Avila's fielding average is .974 and Williams' is .981.

Alvin Dark, an all-round performer, gives the Giants a substantial edge at shortstop over Cleveland's George Strickland. Dark's steadiness at bat, smooth fielding, inspirational value make him one of the foremost shortstops in the game. He is hitting .295 and fielding .956.

Strickland after a good season in 1953, slumped to .215 this year. His fielding mark is .958.

Al Rosen of the Indians, last year's most valuable player in the American League, has failed off after his spectacular 1953 season, but still ranks ahead of Hank Thompson of the Giants for third base laurels.

The Cleveland slugger currently is hitting .300 and his fielding mark is .957. He has hit 24 homers, but his production has dipped since he fractured a finger in early June and was out of the lineup for two weeks. The finger apparently has mended, but now it is reported he is resting up from muscular disorders in his back and thigh and also from a foot ailment.

Thompson's .267 batting average belies his value to the Giants. He is a long-ball threat, as his 26 homers attest, and is a good clutch performer. Thompson also is an impressive fielder despite his .942 defensive average.

Both clubs are well-stocked with utility infielders who could step in and spell the regulars.

FAN BREEZES

BY BILL MERRIS

If you don't have tickets for the Illinois opener against Penn State Saturday afternoon you still may be able to see the contest. George Legg, Illini ticket manager, announced tickets go on sale at Memorial Stadium Saturday beginning at 10 a.m. on both east and west sides. Present sales indicate a crowd of 45,000 so there should be room for you. Don't forget the game starts at 1:30 Central Daylight Time.

Also from the University comes word that the famed "Black T" will operate two units of 1100 students during this coming season. Besides the normal unit located in the West bleachers, this will make the card stunts visible to the fans sitting on both sides.

Wrestling begins another season at the high school gym October 11. The Knights of Columbus will present a three match lineup including midlets. The midlet match will involve Irish Jackie of Dublin, Ireland, and Cowboy Bradley of Boise, Idaho. The feature attraction on this first Monday night of wrestling will be a two-out of three falls one hour time limit bout between Ivan Rasputin and Argentina Rocca.

The third match on the program will be a tag team affair with Bert Rubi and Juan Hernandez opposing Benito Gardini and Rudy Kay. This is the type of card that should go over big with the local wrestling fans.

A Winchester boy, Don Lashmet, showed up quite well in Western's opener last week. Although not a starter, Coach Stevens was well pleased with the running of the former Winchester star.

Indians Whip White Sox 3-1 To Tie Record

CLEVELAND (AP)—The champion Cleveland Indians won their 110th victory of the season Wednesday to tie the American League record set in 1927 by the New York Yankees.

It was a 3-1 decision over the third-place Chicago White Sox from young left-hander Don Mossi pitching five-hit ball and outfielder Al Smith contributing a double and a triple to the scoring.

The pennant winning Indians have lost 41 contests and have three more home games with the Detroit Tigers.

The Cleveland club finished its season engagement with the White Sox in a tie, 11 victories each. The same was true of Cleveland's 22 games with the second-place Yankees, and the Indians hold heavy margins over the rest of the clubs.

Chicago's only extra base hit came in the ninth when Jim Riva tripled. He scored on Ron Jackson's fly.

Braves Cinch To Win In '55: Birdie Tebbetts

MILWAUKEE (AP)—Take it from Birdie Tebbetts, manager of the Cincinnati Reds, the Milwaukee Braves are a cinch to win the National League pennant next season.

"You've got the speed, the pitching and talent to do it," Tebbetts told a local meeting of Sigma Delta Chi, professional journalism fraternity, Tuesday night.

He lectured Milwaukee fans on their over-enthusiasm and indirectly blamed them for the Braves' poor spring showing.

"When the Braves first came here," Birdie said, "you cheered like mad before they even put on a glove. So what happened? Some of them showed up soft down at spring training. All that adulation didn't do them any good. So please, next season save your cheers for the times they make good plays."

The forfeit victory which the Phillies received over the Cardinals on July 18 was the first in the majors since 1949.

Abe Woodson Joins Bates, Caroline In Illinois Backfield

CHAMPAIGN, Ill., September 22.—An explosive trio of hard-running backs led by All-American J. C. Caroline will provide a constant threat for rival defenses during Illinois' 1954 season which opens with tough Penn State in Memorial Stadium here Saturday afternoon.

Offensively, the Illini backfield has potential for the most potent rushing combination Coach Ray Eliot has fielded in his thirteen seasons as Illinois head coach. Whether quarterbacks Em Lindbeck, Hiles Stout, and Bob Gonsola can provide sufficient passing skill for a well-balanced attack will be determined during the difficult nine-game schedule.

Joining Caroline at halfback for Saturday's opener will be sophomore Abe Woodson, Chicago (Austin). Big Ten indoor hurdles champion last year, a break-away runner and fine pass receiver.

"Mickey" Bates, Caroline's running mate when a surprise Illinois team captured a share of the Big Ten title last season, has been moved to fullback where his powerful slashes up the middle will add considerably to defensive problems of opposing squads. Bates also excels as a pass receiver, and his blocking from a flanking position has been impressive during fall drills.

Quarterback Em Lindbeck lends running ability to the Illinois attack. He gained considerable experience as a sophomore last year and now appears capable of handling the Illinois attack. If his past-season performance in Illinois meets expectations, Illini will have a strong offensive quarterback.

Sophomore quarterback Hiles Stout also is heralded as an outstanding passer. The 6-4 Penna. Central prep star is considered one of finest quarterback prospects ever to enter Illinois, and may see lengthy service before seasons end.

Another contender for the signal calling post is junior Bob Gonsola, who missed the 1953 season due to an abdominal injury. Gonsola has many prerequisites for a fine quarterback, and also rates as the squad's best punter.

Eliot apparently has good depth at halfback and fullback. Lettermen Ken Swenton and "Bud" DeMoss return at halfback, as do former squad members Bob Graeff, Jack Heniff, and Dick Ohls. Harry Jefferson, White Plains, N. Y., sophomore is highly-regarded as a runner, and currently rates second behind Woodson at right halfback.

Other promising sophomores are Mike Dick, Clinton, Ind.; Jerry Toman, Chicago (Harrison); Melvin Nuss, Chicago (Kelvin Park); Bob O'Donnell, Chicago (Mt. Carmel); and Rola McMillen, Canton.

Bob Wiman, letterman end as a sophomore last year, joins Baird Stewart, a two-letter winner, behind Bates at fullback. Neither Wiman nor Stewart boasts Bates' offensive potential, but both have impressed coaches as linebackers.

They may see considerable service because of their defensive ability. Wiman also rates as a good pass receiver.

Sophomores Clem Ryan, Park Ridge (Maine Township); and Bob Delaney, Chicago (Mt. Carmel), are regarded as excellent fullback prospects.

With this imposing array of runners, it is not surprising that Coach Eliot plans a "wide open" offense in an effort to defend Illinois' Western Conference title.

Cards Best Cubs 6-3, Lawrence Wins Number 11

CHICAGO (AP)—The St. Louis Cardinals scored all their runs in the fourth and ninth innings as they defeated the Chicago Cubs 6-3 Wednesday. Brooks Lawrence limped the losers to five hits to gain his 14th win. The victory earned the Cardinals a split of their last 1954 series with Chicago, the Cubs holding a 14-8 edge for the season.

Loosing pitcher Dave Cole hit a two-run homer in the fifth before suffering his eighth loss. He was tagged for eight hits and seven walks.

Byrne, Triple Play Give Yanks 3-0 Win Over Nats

NEW YORK (AP)—Aided by a triple play in the sixth inning, lefty Tommy Byrne blanked Washington on five hits Wednesday for a 3-0 New York victory. It was the veteran southpaw's third victory in four decisions since he rejoined the Yankees.

A slim paying crowd of 2,117 saw the Yanks safeguard the 35-year-old hurler's 1-0 lead in the sixth with their triple play.

Wayne Terwilliger and Pete Runnels singled in that order with the former holding second at the start of the sixth. Mickey Vernon then lined to first baseman Bill Skowron who tagged first, doubling Runnels, and threw to shortstop Gerry Coleman. Coleman caught Terwilliger trying to return to second base.

It was the fifth triple play in the majors this season and the fourth in the American League.

New York Bond Market

NEW YORK (AP)—Heavy trading in the corporate bond market Wednesday produced mixed results. Investment quality issues eased under the weight of new financing ventures. But convertible obligations were in demand. "Big Board" volume jumped to \$3,520,000 par value from \$2,560,000 Tuesday. Railroads tended to decline. Industrials were traded selectively while utilities fluctuated narrowly.

Continuing the week's pattern, U. S. government securities were unchanged to slightly lower. Long term bonds held steady. But in intermediates and short term issues gave ground.

CHICAGO LIVESTOCK MARKET REPORT

CHICAGO (AP)—Hogs declined Wednesday, butchers selling 25 cents or more down while sows were steady to 25 cents lower. Saleable receipts totaled 8,500.

Buyers paid \$19.50 to \$20.00, the top for choice 190 to 300-pound butchers. Offerings weighing 160 to 185 brought \$18.00 to \$19.50. Choice 330 to 400-pound sows moved at \$18.00 to \$18.50 with lighter weights reaching \$17.75 to \$19.25.

Salable cattle receipts totaled 15,000. Trading was slow with steers steady to 50 cents down while heifers were steady to 50 cents lower. Top on prime steers was \$29.00. Good to low choice kinds sold for \$20.50 to \$23.25 while most good and choice heifers moved at \$19.00 to \$23.50.

Salable sheep receipts totaled 2,000. Native spring lambs sold steady to weak at \$18.00 to \$20.00 for good to prime types. A small package scored the top of \$20.50. Sheep and yearlings held steady.

New York Stock Market

NEW YORK (AP)—Oils and airlines combined to send the stock market Wednesday to its second straight high mark.

Heavy buying in those two sections, plus good gains scored in almost all major divisions, generated a moderate advance.

Prices were up between one and two points at the most in key areas while a few individual issues bettered that range. Losses were rather small.

The Associated Press average of 60 stocks advanced 60 cents to \$135.80, the third 25-year peak in the past four sessions.

Traders and investors whetted their buying enthusiasm Tuesday when the market rebounded from a Monday dip. They started Tuesday's session slowly enough with moderate gains. But the market continued to roll steadily forward throughout the session as the pace of business quickened.

Higher than the oils and airlines were the steels, foods, motors, railroads, coppers, some aircrafts, the chemicals, tobaccos, coal companies, most movie issues, glass company stocks, utilities and radio-televisions.

The industrial component of the average gave the biggest boost to the average with a gain of \$1.00 at new high of \$186.60 while railroads were up 50 cents and the utilities up 10 cents.

Volume came to 2,260,000 shares. That compares with 1,770,000 shares traded Tuesday.

The general trend on the American was higher. Volume amounted to 670,000 shares as compared with 660,000 shares traded Tuesday.

WHEAT, RYE LOSE, SOYBEANS GAIN

By WILLIAM FERRIS

CHICAGO (AP)—All grains except soybeans sold off on the Board of Trade Wednesday and in the case of wheat and rye the losses were quite large. Soybeans enjoyed good gains.

A slow trade early in the session picked up speed once the major grains started going downward. Largest losses were recorded in rye, subjected to profit taking after its advances over the past several weeks.

Wheat closed 1 1/4-2 1/4 lower, corn 1 1/2-3/4 lower, oats 3/4-5/8 lower, rye 4 1/2-5 1/4 lower, soybeans 2 1/4-4 1/4 higher and laid 10 cents lower to 5 cents a hundred pounds higher.

Wheat lacked commercial support and was subjected to mild hedging pressure throughout the day. The item which touched off the main selling was rather minor — A report a couple of cars of red wheat were being shipped to Chicago from Indiana.

Rye was in a vulnerable position for profit taking as it has experienced sharp gains over the prices ruling a month ago.

Cash soybean receipts totaled 202 cars. This was something of a surprise as the trade had expected more. It helped get soybeans off to a firm start. Later, reports were received that producers were not selling soybeans in any great volume despite the premium prices in the market as compared with the government loan.

Contractors Prepare To Start Pipe Line

Work on the construction of Jacksonville's water transmission line to the Illinois river will get underway within the next ten days, according to announcement Wednesday by Cosler & Stapleton of this city, engineers on the big project.

Tom Torson, associated with his father Charles Torson in the Torson Construction company of Kansas City, Mo., arrived in the city with his assistants and spent Tuesday going over the plans and checking the territory between Jacksonville and Naples.

Mr. Torson said he expects to have two large diggers in Jacksonville early next week. Digging will probably start a week from next Monday. A third machine may be put to work later.

The huge machines excavate the trench and then are used to lay the prestressed concrete pipe.

With favorable conditions, Mr. Torson said, about 300 feet of pipe can be laid by each machine daily. The first work will start in Scott county east of Bluffs, probably moving in both directions.

There will also be considerable activity near Naples where the big well will be dug.

The Price Pipe & Construction company of Dayton, Ohio, has started making both the 24 inch and 30 inch prestressed concrete pipe and will start making delivery soon.

The company will deliver the pipe to the site on trucks. It will probably use about 14 trucks to transport the material to this area. The Ranney company which will construct the wells near Naples have men in Jacksonville. They went to Bluffs Tuesday afternoon and were making surveys near Naples. Test holes will be probably dug down either Wednesday or Thursday as the rigs are expected to arrive in Naples Wednesday.

Sheppard, chairman of the hospital's advisory board. With the same announcement, Frank R. Rantz, president of Elliott State Bank and Mrs. Mazy Condit Rockwood, president of Neat Condit & Grout National Bank in Winchester, were named associate chairmen.

"The willingness of these busy and prominent business executives to serve as leaders in the appeal to be conducted throughout this area for the hospital's building fund is most gratifying," Dr. Sheppard stated, "as each carries heavy responsibilities in addition to their civic activities. Their leadership in this major community enterprise gives encouragement to us all."

Plans call for an appeal to be conducted throughout the area served by the hospital to raise \$750,000 needed for the construction of a new wing to replace the outmoded sections that have been in use for more than 50 years. In addition, some modernization of the newer section of the hospital is included in the plan.

The proposed new wing will provide larger and more efficient facilities for the x-ray department, laboratory, drug room, admission and business offices on the first floor. The obstetrical department will be located on the second floor with new delivery and labor rooms, nursery and 23 patient beds for mothers. The third and fourth floors will be smaller in area than the other floors, and each will provide beds for surgical and chronic patients.

The basement section of the new wing will house the laundry and provide much needed storage space.

A wide area is served by the hospital, as patients living within a radius of 25 miles or more of Jacksonville are received. The building fund campaign organization will include these principal communities in the appeal for funds: Alexander, Aley, Arceneville, Ashland, Bluffs, Chapin, Concord, Exeter, Franklin, Hillview, Litchberry, Manchester, Mercedosa, Modesto, Murrayville, Naples, New Berlin, Palmyra, Prentice, Roodhouse, Scottville, Virginia, Waverly, White Hall, Winchester, Woodson and Jacksonville.
